<b>Table of Contents</b>	<b>Page</b>
Preface .....	xii
List of Tables.....	xix
List of figures.....	xxii
List of Symbols.....	xxvi
List of Abbreviations.....	xxix
List of Photographs.....	xxx
 <b>Chapter-1 : Introduction</b>	 1- 32
1.1. Introduction	2
1.2. Classification of Solids	2
1.2.1. Crystalline Solids	2
1.2.2. Amorphous Solids	3
1.3. Glass	4
1.3.1. History of Glass	4
1.3.2. What is Glass	4
1.3.3. Structural information of Glass	5
1.3.4. Glass Transition Temperature	6
1.3.5. Glass Formers and Glass/Network Modifiers	7
1.4. Preparation of Glass	9
1.4.1. Melt Quenching Technique	10
1.4.2. Properties of Glasses	10
1.4.3. Applications of Glasses doped with Rare Earths	11
1.5. Uniqueness of Rare Earth Spectroscopy	11
1.5.1. Optical Absorption Spectroscopy	16
1.5.2. Judd - Ofelt theory	16
1.5.3. The Particular case of the Eu <sup>3+</sup> ion	19
1.5.4. Luminescence Spectroscopy	20
1.5.5. CIE-Colour Chromaticity Coordinates	21
1.6. Structure of Tellurite glasses	23

1.7.	Brief Review of the Previous Work on tellurite glasses	28
1.8.	Aim of the present work	30
<b>Chapter-2: Experimental</b>		<b>33- 46</b>
2.1.	Introduction	34
2.2.	Glass preparation	34
2.2.1.	Composition of the Glasses	34
2.2.2.	Methods of preparation of glasses	36
2.3.	Physical and structural characterization of the samples	37
2.3.1.	Physical Parameters	37
2.3.2.	X-ray diffraction	39
2.3.3.	Raman Spectroscopy	41
2.4.	Optical investigation	42
2.4.1.	Absorption Spectra	42
2.4.2.	Photoluminescence Spectra	44
2.4.3.	Photoluminescence decay spectral measurements	45
<b>Chapter-3:</b>		
<b>Dy<sup>3+</sup> ions doped Single and Mixed Alkali Fluoro Tungsten Tellurite Glasses for LASER and White LED Applications</b>		<b>47- 68</b>
3.1.	Introduction	48
3.2.	Experimental	50
3.3.	Results and discussion	51
3.3.1.	XRD spectral analysis	51
3.3.2.	Physical properties	52
3.3.3.	Absorption spectral analysis	52
3.3.4.	Investigation of luminescence spectra and estimation of various radiative Properties	59
3.3.5.	Photoluminescence decay spectral analysis	63
3.3.6.	Colour chromaticity and colour tunability of single and mixed alkali	66

glasses	
3.4. Conclusions	68
<b>Chapter-4:</b>	
<b>Compositional dependence of Red Luminescence from Eu<sup>3+</sup> ions doped Single and Mixed Alkali Fluoro Tungsten Tellurite Glasses</b>	69 - 85
4.1. Introduction	70
4.2. Experimental	72
4.3. Results and Discussion	73
4.3.1. Raman Spectral Analysis	73
4.3.2. Optical Absorption Spectra	74
4.3.3. Excitation and Photoluminescence Spectra	75
4.3.4. Photoluminescence decay spectral analysis	80
4.3.5. Colour Chromaticity Co-ordinates	83
4.4. Conclusions	85
<b>Chapter-5:</b>	
<b>Pr<sup>3+</sup> ions doped Single and Mixed Alkali Fluoro Tungsten Tellurite Glasses for Visible Red Luminescent Devices</b>	86 - 100
5.1. Introduction	87
5.2. Synthesis and characterization of glasses	89
5.3. Results and discussions	90
5.3.1. Analysis of optical absorption spectra-Measurement of Oscillator Strengths & J-O Parameters	90
5.3.2. Analysis of Photoluminescence spectra and Evaluation of radiative properties	94
5.3.3. PL decay spectral analysis	98
5.4. Conclusions	100

**Chapter-6:**

**Compositional dependent spectroscopic properties of Sm<sup>3+</sup> ions doped Single and Mixed Alkali Fluoro Tungsten Tellurite Glasses** 101 - 121

6.1.	Introduction	102
6.2.	Experimental	104
6.3.	Results and discussion	105
6.3.1.	Physical properties	105
6.3.2.	Absorption spectral analysis	107
6.3.3.	oscillator strengths and J – O parameters	109
6.3.4.	Absorption edge	111
6.3.5.	Photoluminescence Spectral Analysis	112
6.3.6.	Radaiative Parameters	115
6.3.7.	Photoluminescence decay spectral analysis	118
6.3.8.	CIE color co-ordinates	120
6.4.	Conclusions	121

**Chapter-7: Summary and Future Scope of work** 122 - 136

7.1.	Introduction	123
7.2.	Summary and comparison of results obtained for Dy <sup>3+</sup> ions doped single and mixed alkali fluoro tungsten tellurite glasses	124
7.3.	Summary and comparison of results obtained for Eu <sup>3+</sup> ions doped single and mixed alkali fluoro tungsten tellurite glasses	127
7.4.	Summary and comparison of results obtained for Pr <sup>3+</sup> ions doped single and mixed alkali fluoro tungsten tellurite glasses	130
7.5.	Summary and comparison of results obtained for Sm <sup>3+</sup> ions doped single and mixed alkali fluoro tungsten tellurite glasses	133
7.6.	Future Scope of Work	136

**8. References** ..... 137

**9. List of Publications** ..... 173

**10. List of Conferences attended** ..... 177
